

We'd love for you to join us for a pre-release screening of, The Quiet Epidemic!! The documentary is truly so well done and features prominent doctors, patients and advocates who paint the true picture of our realities. This is a perfect opportunity to bring friends and family members so that they can better understand what you are going through and learn more about this ever-growing health crises that we face that hits closer to home than most realize.

This event will be hosted by Project Lyme, The LEAF Program, INC (Lyme Education Awareness Foundation) and Lyme Alive. We will also have author of the newly released memoir/support book, "Love, Hope Lyme," Fred Diamond guest speaking and he will be doing a book signing, as well. LEAF President, Dr. Nancy Fox and Board Member of Project Lyme, Ashley Baker will be there to speak as well.
